ABSTRACT

This report reflects Waukesha County Technical College's (WCTC) job placement study of 1999 graduates. It summarizes by degrees and programs the employment status, salaries, job titles, and employers of former students who graduated between July 1, 1998 and June 30, 1999. The data were obtained through a survey conducted from October 1999 through January 2000. Nine hundred-forty students graduated in the academic year 1998-99. Among the 522 graduates who responded to our follow-up survey, 96.5 percent of the graduates were very satisfied or satisfied with their training at WCTC. Eighty-four percent of the graduates who were employed found jobs in fields related to their training at WCTC. Graduates frequently indicated "prepare for a job" (43%), "prepare for a career change" (20%), and "improve existing job skills" (12.4%) as their reasons for attending WCTC. The average annual salary for associate degrees was \$31,426, and the average annual salary for technical diplomas was \$25,043 for graduates in full-time jobs in fields related to WCTC training. Graduate Follow-Up Report 1999

A Message From the President

Waukesha County Technical College (WCTC), is committed to providing necessary workforce training for area citizens and businesses. This 1999 Graduate Follow-Up Report, reflecting WCTC's job placement study of 1999 graduates, confirms that we are clearly meeting our goal which has become more crucial with the growth and development of the Waukesha County area.

The WCTC graduates surveyed in our follow-up study demonstrated that they have acquired the skills and knowledge needed to successfully compete in the labor market. While many of our students are enrolled in programs on a part-time basis to upgrade their skills, the program graduates featured in this report are individuals who have completed all the requirements in one, or more, of our programs.

We, at WCTC, are proud of the successes of our graduates. Their successes are a measure of our success.

The 1999 Graduate Follow-Up Report provides valuable career information for prospective students, counselors, teachers and employers. I hope that you will find this report both interesting and informative. If you have any questions concerning this report, I would be more than happy to discuss them with you.

Richard T. Anderson, Ed.D.
President

Graduate Follow-Up Report 1999

Graduate Follow-Up Report Information

This report is a summary of the employment status, salaries, job titles, and employers of 940* graduates who graduated from WCTC associate degree, technical and apprenticeship programs between July 1, 1998 and June 30, 1999. The data was obtained through a survey conducted from October 1999 through January 2000.

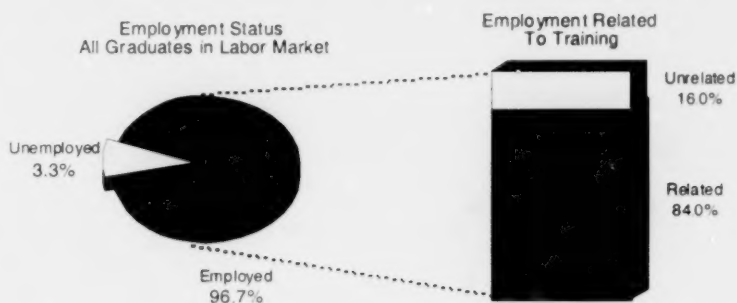

Salaries are reported for those respondents employed full-time (35 hours or more per week) in occupations that are related to their WCTC training and exclude commissions, overtime, bonuses, or other compensation. Salary information includes:

- Monthly salary range - the actual lowest and highest salaries reported by all respondents who are employed full-time in related occupations.**
- Median monthly salary - the middle salary reported in the range of salaries; half of the graduates reported higher salaries and half of the graduates reported lower salaries.
- Mean monthly salary - the average of all salaries reported.
- Mean hourly salary - the average hourly salary reported by graduates which is calculated by dividing the monthly salary by the number of hours worked per week divided by 4.333.
- Mean monthly entry salary - the average salary of graduates who started their employment after graduating from WCTC.
- NA - Data are not available - to maintain confidentiality, salary data have not been provided for those programs where fewer than three respondents provided salary information.

**Note: This is a duplicated count: approximately 1.1% of the students graduated from two programs.*

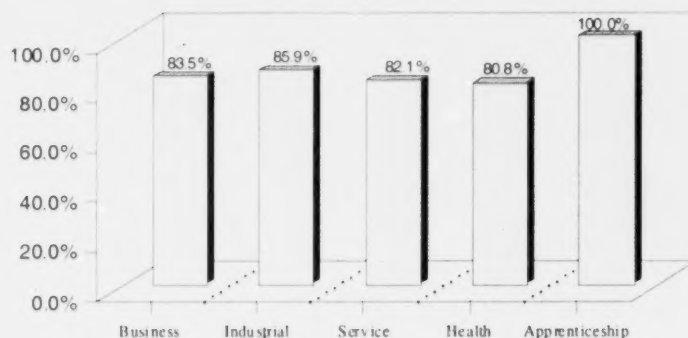

*** All respondents include graduates who started their employment before enrolling, while attending or after graduating from WCTC.*

1999 Graduate Respondents' Satisfaction with training at WCTC

Additional copies of this report may be obtained by contacting the Department of Research and Evaluation Services, WCTC, 800 Main Street, Pewaukee, Wisconsin 53072. For information call Simon Tai at 691-5577.

WCTC 1999 GRADUATE PROFILE

Graduate Highlights

- 940 students graduated in the academic year 1998-99.

Among the 522 graduates who responded to our follow-up survey:

- 96.5% of the graduates were very satisfied or satisfied with their training at WCTC.
- 91.2% of *all* graduates were employed within six months of graduation.
- 96.7% of the graduates who were *in the labor market* were employed within six months of graduation.
- 84.0% of the graduates who were employed found jobs in fields related to their training at WCTC.
- For those graduates who provided their employment location, 58.2% worked in the WCTC district and 97.8% worked in Wisconsin.

Graduate Diversity

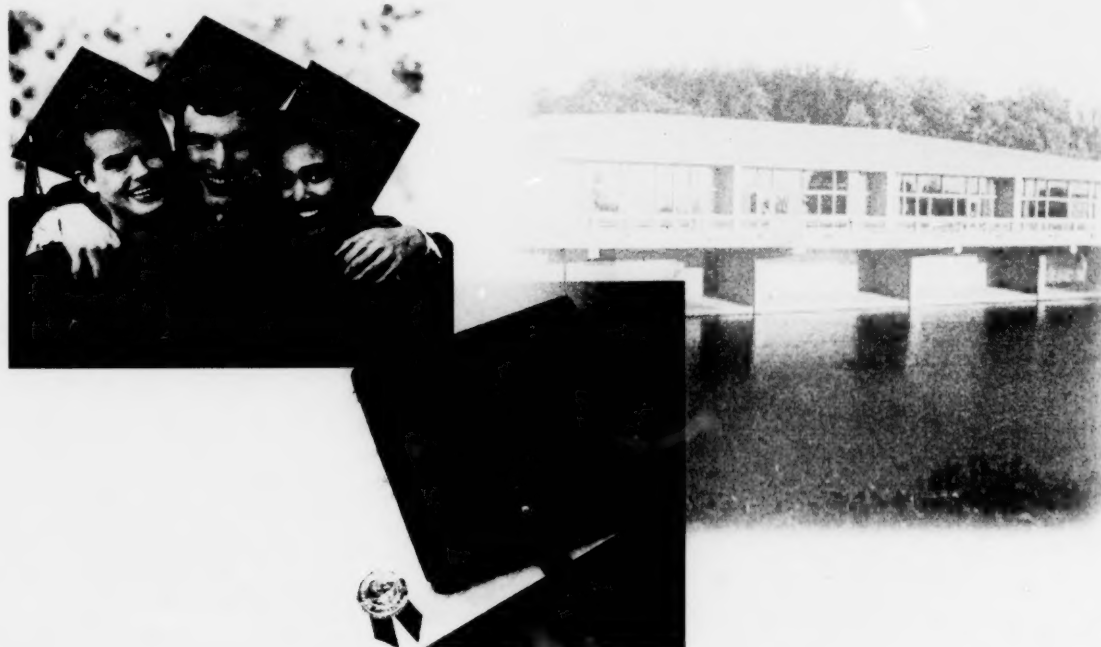

- For all graduates, the youngest age was 17 and the oldest was 64 with an average of 29.7 years old.
- There were more female (53.3%) than male (46.7%) graduates.
- 61.4% were residents of the WCTC district.

Graduates' Reasons for Attending WCTC

- Prepare for a job - 43%
- Prepare for a career change - 20%
- Improve existing job skills - 12.4%
- Prepare for further education - 12.2%
- Personal interest - 3.5%

Graduate Earnings (Full-time jobs in fields related to WCTC training)

- Average annual salary for associate degrees - \$31,426
- Average annual salary for Technical diplomas - \$25,043
- Average annual salary for graduates who:
 - Started before/while attending WCTC - \$32,598
 - Started after graduation (entry level) - \$27,887
- Average annual salary for female graduates - \$28,016
- Average annual salary for male graduates - \$32,835
